Final Thoughts

The CPRC family has remained committed to the mission and vision of the Center. Together with our partner agencies, we have developed a response to addressing child maltreatment that begins with a supportive, child friendly, and effective investigation process. A process committed to providing evidenced based medical and therapeutic services to the children and families impacted by these concerns.

But we did not stop there!

Recognizing that child maltreatment can negatively impact the physical and emotional functioning of the children and families involved for years and well into adulthood. CPRC has committed resources to continue to support the children and families as they make their way through this process.

Thank You!

To everyone who has graciously contributed to the success of the Child Protection Response Center, including the Scott County Regional Authority and the Regional Developmental Authority.
